NAE Values

- **Warfighting first:** The NAE is all about warfighting readiness
- **Cost-wise readiness:** tied to the demands of our Fleet operators
- **Improved time on wing:** buying less but better equipment that stays on the aircraft longer
- **Greater speed/reduced cycle time:** aircraft and components spending less time in maintenance
- **Reliability:** better quality
- **Reducing total cost,** and
- implementing **process** efficiencies.

NAE Principles

- **Process view:** By working horizontally across organizations, an enterprise can achieve the desired results with less time, resources and costs. Achieves alignment on common goals.
- **Transparency:** Each piece of the enterprise must see the process ahead of it and the process behind it
- **Metrics:** Relevant measurements must be linked throughout the processes, built on each other and driven to challenging standards
- **Accountability:** People within an enterprise hold themselves accountable for actions taken *and* not taken
- **Integration:** Enterprise behavior stimulates a culture of productivity, and facilitates change across stovepipes

The NAE...

- ...**fosters organizational alignment**;
- ...**encourages inter-agency integration**;
- ...**enables communication** across elements;
- ...**stimulates** a culture of productivity;
- ...**resolves** enterprise-wide issues;
- ...**facilitates change** when change is needed to advance and improve.
